Eleplan × CAREGIVERS SUPPORT GLOBAL

FOR THE CAREGIVERS SUPPORT GLOBAL COMMUNITY

FOR FAMILY CAREGIVERS & THOSE WHO SUPPORT THEM

Help the families you serve carry a little less.

Caregiving doesn't pause between check-ins. Family caregivers are holding it all together: medication lists, medical records, appointments, paperwork and a group text full of relatives asking for updates. Eleplan gives them one secure place for all of it, plus Ellie, their AI assistant, to answer questions and keep everyone in sync.

Everything in one place

Documents, medications, appointments and notes, organized in one secure plan.

Share on their terms

Decide who sees what, for how long. Every share is permission-based and revocable.

Ellie meets you where you are

On your phone, computer or browser, by voice or text. Ellie draws on the documents, email and patient portals you already use.

A predictive copilot

Ask Ellie anything. She spots what is coming up and works in the background, so you don't have to carry it all alone.

≈ 7 hours a week, back to the people they love

Time Eleplan can give back from calls, portals and paperwork · The Eleplan Caregiver Clock

SOMETHING GOOD TO HAND FAMILIES

Share Eleplan with the families you serve.

100% off for 12 months, included with this signup link. For new subscriptions, while available. iPhone, Android, Mac, Windows and web.
